

Firmenich is a Swiss and family-owned company who has been operating for over 120 years and is the largest privately owned company in its industry. We create flavors and fragrances for the world's most desirable brands, delighting billions of consumers every day. With an ambitious people development agenda we aim to inspire happiness and well-being for our employees.

We are currently looking for a

Senior Sensory Technician

to work in our Perfumery Division in our facilities in **London**.

What's in it for you?

- You will join a leader in the industry with proven track record of more than **120 years of excellence**.
- You will be **part of a global team** and have chance to cooperate and exchange knowledge with people from all around the world.
- You will get chance to **develop** your skills and **grow** within company.
- You will work for a company **committed to sustainability**.

You should apply if?

- You have at least one year of experience in a sensory field.
- You have a degree in sensory or food science.
- You have previous experience in leading sensory panels and/or facility management.
- You are familiar with sensory techniques.
- You are great communicator who loves working in a team.
- Previous experience in perfumery field.
- Knowledge of FIZZ software.

What's the job about?

- You will lead sensory projects from beginning to end to support fragrance and technology development.
- You will be responsible for managing the performance and validation tests in an efficient and responsive manner across all fragrance categories, including panel management.
- You will manage efficiently the externals and internals panels.
- You will develop and maintain contacts with test requestors and where appropriate liaise with clients to maximize effectiveness of sensory work to help win business.
- You will manage and ensure the optimum working of sensory facilities.
- You will proactively work within the Global Sensory Team to support development of new methodologies and protocols or sensory proactive programs according to business needs.
