

Consumer & Sensory Insights (CSI) Technologist 65%

Givaudan, the world leader in the Flavours Industry, is looking for a dynamic Consumer and Sensory Insights technologist at 65%. This is an exciting opportunity to lead and manage the Savoury sensory panel and associated tests execution and reporting as part of the EAME Savoury and Snacks CSI group, Flavours Division, based in Kempthal, Switzerland.

Sounds interesting? In this role, you will:

- **Manage & lead the savoury sensory panel:** you will be involved in day to day management and continuous training of an expert sensory panel specialised in savoury categories. This part also includes the screening, integration and training of new panel members when applicable. You will organize the annual performance review meeting with panelists with the help of project managers. You will also manage all events organized for panelists.
- **Ensure a timely and high quality execution of CSI tests:** you will be in charge of executing all sensory discriminative and descriptive projects for the EAME region with the leadership of project managers, ensuring the panel delivers high quality data in line with Givaudan best practices. You will ensure that projects are being executed following priorities, timeline and methodologies agreed with key stakeholders.
- **Represent CSI expertise:** you will promote Givaudan CSI expertise to internal and external customers for savoury categories across the EAME region during sensory language training. You will manage the Givaudan sensory language for the CSI savoury team and will ensure constant connection with the Sensory Language EAME representative to share challenges, get new updates and receive solutions.
- **Contribute to the Functional excellence in Consumer and Sensory Insights:** you will contribute to the development of CSI Technicians, will keep up to date with developments of CSI new descriptive or discriminative methodologies and ensure best in class CSI are applied within Givaudan.

You?

Are you someone who wants to grow and shape your own world? Who wants to collaborate and learn together with teams who are as passionate as you are? Then come join us – and impact your world.

Your professional profile includes:

- An advanced university degree in Food Science, Sensory, Consumer Insights, Market research or related area
