

Sensory Science Trainer
Gloucestershire, UK
£22,500 - £35,000

This is a great opportunity for someone with a background in sensory science who is looking to move into a coaching and development role. Working within an established organisation, you will have access to excellent career progression and a range of fantastic benefits.

Duties will include:

- *Development of courses and course materials
- *Provision of administrative support for pre and post course projects
- *Delivery of scheduled and tailored consumer and sensory training courses to internal and external delegates
- *Identification and acquisition of new business opportunities
- *Assist with management of financial performance of the section
- *Review current practices, policies and methods

Skills and experience required:

- *At least 5 years' experience within sensory science
- *Degree within food science or related topic beneficial
- *Qualification in the field of sensory science - minimum IFST Foundation Course
- *Knowledge of BRC and its applications
- *Excellent interpersonal skills
- *Strong IT skills, including Word, Excel and Powerpoint

Due to the location of this role, own transport will be required.

We like to speak to every application, but due to the current climate this is not always possible. To ensure your application is not overlooked it is important that you emphasize any skills or work experience relevant to this position. If you have not heard from us within 5 working days please assume that you have been unsuccessful in this instance.
