

## Internship: Sensory Panel Assistant

### Tracking Code

4946-292

### Job Description

As an Intern you will assist the sensory team in setting up, preparing and coordinating sensory and stability tests as part of the Sensory group in the IFF Functional Fragrances division (Fabric care).

Complete data processing, analysis and reporting.

Assist with the maintenance and training of the sensory panel.

### Key responsibilities

- Helping to set up and the sensory tests using Compusense software (training will be provided).
- Prepare and supervise tests along with the sensory panel leader.
- Assist in recruitment, training and administration of IFF's Hilversum fragrance sensory panels.
- Data collection and archiving.
- Data analysis, processing and reporting.
- Keep in close contact with internal clients (e.g. Technical dep.) and suppliers (e.g. Launderette).

### Required Skills

Experience using sensory tools and statistics is preferred.

Good working knowledge of MS-Office.

Good English written and oral communication skills.

The job requires:

- Accuracy / attention to detail
- Organisation
- Interest in sensory research and data handling
- Good interpersonal skills
