

MANE is one of the worldwide leaders in the fragrance and flavour design industry. By nature, we are very sensitive to the new trends that build desire and emotions.

At MANE, We Capture What Moves.

We are seeking a

## Sensory & Consumer Insights Manager

for a full-time position in our Vouvry R&D centre in Switzerland

### Main Tasks/Responsibilities

#### Lead the Sensory and Consumer Insight activities, with priority for a global customer

- Plan and organize sensory and consumer research activities to support cross category strategic projects within agreed deadlines
- Supervise and maintain effective external and internal panels
- Interpret panel/consumer data through statistical analysis and communicate results effectively in reports and/or oral presentations
- Collaborate closely with Mane sensory and consumer teams to ensure best practices and alignment on methodologies
- Work with sensory/consumer agencies when relevant

#### Partner with the R&D and commercial teams:

- Plan and develop project proposals to support customer strategic vision
- Support R&D strategic projects through coordination of suitable tests (e.g difference tests, stability tests...)
- Collaborate with the sales team to perform sensory & consumer insights activities and identify business opportunity
- Support the sales team with customer presentation and clear communication on sensory/consumer projects
- Point of contact for all sensory matters with the Global customer and develop a Sensory network

### Requirements

#### Qualifications & experience

- University degree in Sensory and Consumer Science, Psychology, Sensometrics or related studies
- Minimum of 5 years of professional experience in food or flavor environment
- Sound statistical and FIZZ software knowledge
- Fluency in English is a must, French an advantage

#### Personal skills:

- Autonomous, proactive and pragmatic mindset.
- Strong interpersonal and leadership skills
- Hands-on attitude and ability to switch between tasks easily
